NEW BUSINESS

- Resolution to support SWAP (Safe Water Infrastructure Action Program)
SWAP is designed to provide municipalities with water, sewer and storm water infrastructure, an annual supplemental funding stream to support operation and maintenance activities. Just like the successful Consolidated Local Street & Highway Improvement Program (CHIPS), municipalities would know what their annual SWAP allotment would be. This would afford us the opportunity to perform maintenance and/or replacement, which can be performed by our municipal staff. These would be smaller projects such as equipment replacement, manhole rehabilitation or water line replacement. The long term sustainability of the systems would improve through the increased operation and maintenance funding and rates could stabilize and remain affordable.

Some of the infrastructure in New York dates back over 100 years and the inter-connectivity of water means that if the infrastructure fails in one location, many cities, towns and villages will also be affected. For these reasons, the Town of Rockland supports bill # S3292/A3907 to develop a dedicated funding program to distribute funds annually to municipalities to ensure the integrity and reliance of municipal water, sewer and storm water infrastructure and we respectfully urge your support of this legislation.

A motion to support SWAP was made by Ms. Ryder, seconded by Mr. Devantier and unanimously carried.

- Resolution to set public hearing on Limited Camping Moratorium zoning issue
The following resolution was introduced by Councilperson Ryder, who moved its adoption, and seconded by Councilperson Devantier, to wit:

BE IT RESOLVED, that introductory Local Law No 3 of the Year 2018 entitled “ A local law establishing the 2018 Town of Rockland Limited Camping Moratorium” is hereby introduced before the Town Board of the Town of Rockland, Sullivan County, State of New York; and

BE IT FURTHER RESOLVED, that copies of the aforesaid local law be laid upon the desk of each member of the Town Board; and
