845-439-4399 Ext. 103 PM

Dear Sewer Customers of the Town of Rockland,

Please do not flush trash down the toilet or other drains or plumbing. Use a trash instead of the toilet to dispose of used wipes, hygiene products or other items that do not break down like toilet paper. Even if the label says “flushable,” these items build up in the sewer system and cause overflows that may cause excessive damage to your own property or to that of the town. On some occasions there are excessive blockages to the sewer lines where the Sewer Department can not unclog the line. An outside vendor must be called, these vendors are costly. If outside vendors are continuously required the sewer rents may potentially rise.
